Complete 600-511 Actual Test with Lead2pass New Cisco 600-511 Exam Dumps

 Each Answers in Cisco 600-511 study guides are checked by the concerned professional to provide you the best quality dumps. If you are looking to get certified in short possible time, you will never find quality product than Lead2pass. QUESTION 1Which four options are important functions offered by the Cisco APIC? (Choose four.) A.   fault and event managementB.   hypervisor, storage, and computing managementC.   Layer 3 through 5 services integrationD.   statistical collection and analysisE.   performance managementF.   nonblocking data planeG.   1.5:1 oversubscribed portsH.   BGP and OSPF routing protocol supportAnswer: ABDE QUESTION 2Before you design an ACI fabric, it is important to understand existing application interactions. If you do not understand them entirely, which approach can you use? A.   Design a classic routing configuration in which everybody can talk to anybody as the equivalent to a contract called "anyany" that all EPGs provide and consume.B.   Design around the Cisco ACI whitelist model using the common tenant, where, by default, two EPGs can communicate to each other in the absence of a contract.C.   Map each EPG to familiar constructs such as VLANs that provide segmentation and will apply policy application interactions.D.   Leverage advanced orchestration tools like Cisco Intelligent Automation for Cloud or Cisco UCS Director to document existing application interactions. Answer: A QUESTION 3You want to satisfy the business, risk, and customer requirements. Which option is a consideration when you select and design an ACI fabric? A.   the requirement for meaningful services (such as traffic load balancing, segmentation, filtering, traffic insertion, and monitoring) for workloads provided by virtual Layer 4 to Layer 7 serversB.   virtual machine mobility because moving from one server to another one would have to occur on the same leaf so that ACI can preserve virtual machine visibility and policy enforcementC.   the breakdown of virtual versus physical workloads because virtual workloads are treated preferentially in ACID.   the requirement for a central point of management, but no centralized control plane Answer: D QUESTION 4In which three ways can the location of VMware virtual endpoints be learned? (Choose three.) A.   out-of-band handshakeB.   Link Layer Discovery Protocol and Cisco Discovery ProtocolC.   distributed switch learningD.   VXLAN discovery protocolE.   OpenFlowF.   NVGRE discovery protocol Answer: ABC QUESTION 5Which four subcomponents can contracts be broken into? (Choose four.) A.   subjectsB.   filtersC.   actionsD.   labelsE.   tenantsF.   end pointsG.   access entity profile Answer: ABCD QUESTION 6Which statement about bridge domains is true? A.   EPGs can be associated with multiple bridge domains within a tenant.B.   Subnets may overlap across bridge domains within a tenant.C.   Applications that require Layer 2 flooding should use one bridge domain per subnet.D.   Bridge domains support only private or public subnet scopes. Answer: C QUESTION 7In which two ways are EPGs defined? (Choose two.) A.   static binding with a portB.   host MAC addressC.   external routing adjacencyD.   based on NetFlow groupsE.   using WFQ Answer: AC QUESTION 8When building a contract, what is the function of a filter? A.   classification of trafficB.   a Layer 7 parameter setting for filtering application callsC.   to drop or adjust routing updatesD.   to enforce SLAs Answer: A Lead2pass Cisco 600-511 exam preparation PDF document can be downloaded on any device that makes it quite easier to prepare for Cisco exam anywhere. All our customers are welcome to take free trial of the Cisco exam preparation PDF question and answer pack before using the product. If you want to pass your 600-511 exam , Leadf2pass is your best options. http://www.lead2pass.com/600-511.html
